

CENTARA TOKEN

A Decentralized Investment Platform

From People to Cryptocommunity

www.centara.io || Whitepaper V1.0

MISSION

The blockchain industry has grown dramatically over the past decade. There is no doubt about it, especially now that thousands of digital currencies have spread across industries and sectors, which has had a major impact on the world.

When Satoshi Nakamoto first introduced the Bitcoin currency, in 2009, it meant a revolution in the financial sector and a fundamental change that came about because of our having "money."

We aim to launch a community driven DeFi Token on the Binance Smart Chain (BSC) Network, with instant rewards for holders, fully secured and 100% safe project, your first trust fund crypto from which you can build your wealth, we aim to provide a secure way for high volume transactions within the crypto space, Centara Token will provide updates and serve Crypto traders Price Movement Predictions. Join the \$Centara mission to the moon.

INTRODUCTION TO CRYPTOCURRENCIES

Cryptocurrency is a digital or virtual currency that is secured against cryptography, making it nearly impossible to counterfeit or double spend. Many cryptocurrencies are decentralized networks based on blockchain technology. An obvious feature of cryptocurrencies is that they are usually not issued by any central authority, which ideologically protects them from government interference or manipulation.

WHAT IS DEFI?

DeFi, also known as decentralized finance, has become a boon for the blockchain industry and the world at large. Since we know that cryptocurrency acts as a decentralized store of secured value, DeFi is developing a decentralized financial instrument that is free from traditional centralized institutions. The DeFi world experienced rapid growth in 2020, with the DeFi industry valued at \$ 275 million in 2019. But by February 2020, it had skyrocketed to \$ 2.5 billion in early June, \$ 3 billion by mid-June, and \$ 4 billion by 25th June. This growth rate indicates a growing public interest in the issue.

WHAT IS CENTARA?

Centara is a static reward token that benefits investors. The 10% trading commission provides a combination of rewards for token holders and liquidity, increasing the value of the Centara.

Unlike typical yield farming rewards, Centara static rewards are based on trade volume. This reduces the pressure of sellers on early adopters to trade their coins. What for? Because, as an owner, every time another investor sells Centara, you will be rewarded for it.

As you continue to hold Centara, you will receive more rewards based on the percentage of the total tokens you hold, and the tokens sold by others.

WHY WE CREATED CENTARA

We will move on to the straight line. You may be familiar with the “SafeMoon Protocol”, which claimed to create a target price by locking the token in a liquidity pool that its team could not access. Well, it turns out devs owners has and can access the wallet that protects these pairs.

This means that according to the SafeMoon protocol, a team can lose the value of their currency at any time. Not very safe, right?

This reflects a big problem in the crypto, especially in the BSC space. Trust is a precious commodity, more valuable than a single currency or project. A trusted project will attract ethical investors who, in turn, will support the growth of the project.

We decided to create Centara because we were tired of spending hours exploring investment opportunities. We founded Centara with one goal in mind: to develop a roadmap to demonstrate the reliability of the project.

LP Progression Statement

Compound Your Investment, every transaction automatically generates more liquidity throughout multiple exchanges, allowing a faster growing community.

Tokens cannot be accessed in the liquidity pool, not even by the development team. They live in a wallet that no one else has. When a new transaction occurs, coins are sent to this inaccessible wallet. This eliminates fears that guaranteed liquidity may be eliminated.

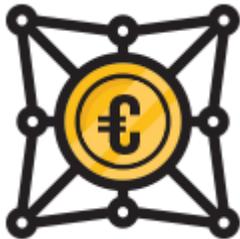

WHY TO CHOOSE CENTARA TOKEN?

Centara is a community driven DeFi Token, with instant rewards for holders & liquidity generation protocol. Just Buy and Hold \$Centara and you will automatically get more in your wallet.

Community Powered

Centara is fully deCentralized and owned by its fun, vibrant community. We welcome and embrace diverse perspectives to build Centara into the best community in crypto.

Instant Rewards

For every transaction in Centara network (buy or sell), 5% of the transaction is distributed to existing holders. That means you earn Centara just by holding it in your wallet.

Safe and Secure

All Safety procedures are applied to protect investor's funds. Verified contract | No Team tokens | Ownership renounced | Liquidity locked | DXSale Presale with purchase limits (anti-whales).

The Wealth Grower

Grow your fund with Centara Premiums, earn transaction tokens and watch your balance grow as the Centara Token Community is built.

CENTARA TOKEN TOKENOMICS:

Token Name	Centara Token
Total Supply	1,000,000,000,000,000
Pre-sale Token	750,000,000,000,000

Total Trade Fee: 10%

5% is redistributed to Centara holders

5% is sent to add liquidity by selling half for BNB, then combining those tokens with Centara to create a BNB-Centara liquidity pool on Pancake Swap.

Centara Token Pre-Sale:

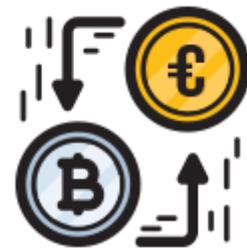

We will be hosting our \$Centara token presale on DxSale.

DxSale is a fully decentralized DeFi launchpad with instant liquidity locking.

Soft Cap - Hard Cap	75 BNB - 150 BNB
Pre-Sale exchange rate	2,850,000,000,000 \$CENTARA PRICE: 1 BNB
Min & Max contributions	0.1 BNB - 5 BNB

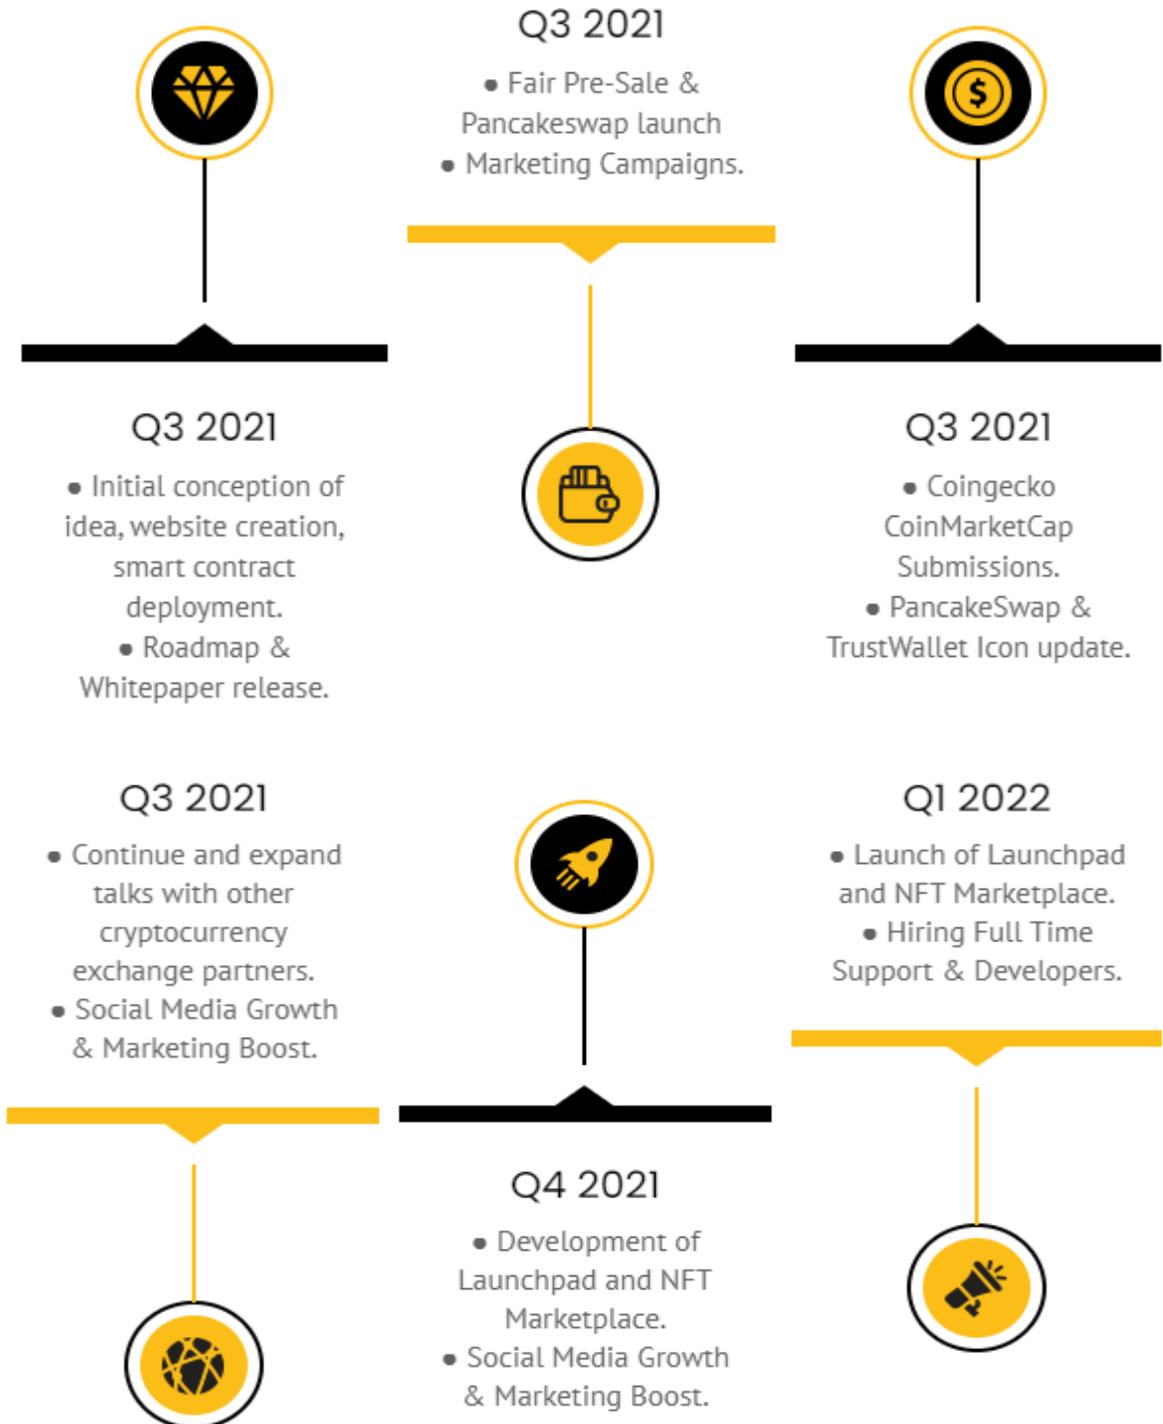

Exchange Updates

We are negotiating with the exchange, and it will happen very soon! Please be patient as it doesn't happen overnight, but we promise it's not that far! We're still downstairs and preparing to take off.

ROADMAP & FUTURE

The milestones on this road till 2021 are:

FAQ

What is the Centara.io?

Centara is a community driven DeFi Token, with instant rewards for holders, fully secured and 100% safe project. Join the \$Centara mission to the moon.

How Centara Tokenomics works?

- 5% Distributed to holders. (We reward holders with a 5% transaction tax which puts Centara directly into your wallet every time someone buys or sells).
- 5% Added to liquidity. (Transaction fee going into the LP (auto-generated LP)).

✓ That makes a total of 10% fees on every transaction. This will improve security by making bot trading on Centara impossible and prevent important price movements by increasing the liquidity over time. In the process, the LP has been moved to Pancakeswap V2. Centara now has the proper foundations to begin its exponential expansion.

What is the purpose of Centara?

Centara is built to Reward loyal holders and to provide them with a secure passive income, The more Centara you hold the more Centara you get.

What makes Centara different from other coins?

We think our strong point is our transparency, we want our investors to be fully reassured about there funds, have good nights of sleep while earning Centara.

What makes Centara unRuggable?

All Safety procedures are applied to protect our investor's funds:

- Verified contract.
- No Team tokens.
- Renounced Ownership.
- Locked Liquidity.
- Presale with purchase limits (anti-whales)
- No minting functions or honeypot.

When will the Pre-sale be available?

The presale will be available on August 8th, 2021, 17:00 UTC at DXsale.

Where can I join the presale?

The presale will be available in DxSale, we will update the links on our website to redirect directly to dxsale when it will be available.

How can i buy from DxSale?

<https://www.youtube.com/watch?v=iAZVoOONAlg>

When is the listing of Centara in pancakeswap?

We will announce the listing right after reaching the Hard-Cap.

Should I use V1 or V2?

Use V2, that is the Pancakeswap liquidity pool.

Pancake Swap slippage?

- Set slippage to 10%

Are there any marketing plans?

Absolutely! We have a clear roadmap, our marketing campaign will start listing on coingecko (as soon as possible) and right after youtube promotion, and pocoin ads.

I am a promotor I have a proposal?

Please DM our telegram group admins.

RISKS AND CONCERNS

Information published in White Paper

This white paper provides general information and content. You are not authorized and should not rely on this white paper for legal, business, or other advice. You act at your own risk, relying on the content of the official document. If you choose to act or not, you should contact a licensed lawyer in the appropriate jurisdiction with which you want or need assistance. We are not the owner and do not endorse the technical document in any way. The White Paper is not responsible for the actions or decisions you make, or any other behaviour that depends on it.

Investment Risk

The team does not recommend anyone to buy, sell or store cryptocurrency. Before making any investment decisions, consult with your long-term employee and financial advisor. By purchasing Centara, you agree that you are not purchasing securities or investments and that you agree not to harm this team and their liability for any loss or

tax. You also agree that the team provides the token "as is" and does not require any assistance or service.

Compliance with tax obligations

The team does not guarantee compliance with any country in the world. Be sure to comply with local laws and regulations before purchasing.

No guarantee

The technical document is provided "as is" without warranty of any kind with respect to the technical document and / or any content, data, content and / or services provided in the technical document.

Limitation of Liability

Unless otherwise required by law, the website owner or his affiliates are in no way liable for any damage of any kind, including when using the website. In connection with the use of a white paper or in any other way, including reduction, loss of profits or loss of data.

Arbitration

Future Statement

This white paper may have future data issues.

Such statements are subject to risk and uncertainty. Participants are cautioned not to rely too much on this pending data. Actual results or subsequent events may differ from the advice given here. The team does not guarantee the accuracy of future data included in this white paper.

CONCLUSIONS

The Centara project is launched with the aim of building a financial infrastructure for those who were previously isolated. We use the most modern and voluminous technology, a blockchain that can integrate mobile applications with third-party plans.

The science of cryptocurrency economies will also contribute to the well-being of developing countries and can even benefit large economies.

Crypto Economics:

- An increase in the number of Crypto economics consumers will lead to growth in the industry

For developing countries:

- Poverty reduction
- Long-term employment and economic growth: The more savings opportunities, the higher the credibility of the

population. Collecting customer financial data reduces your debt risk.

- Reduced class inequality: Financial services can provide new opportunities for billions of people living on less than two pounds a day and transform them into a middle class that will improve their lives.

For developed countries:

- Third, improving the economic situation of third world countries can reduce the current immigration problems faced by the modern economy, where immigration places a serious burden on the social security system and associated high prices. Centara Token is not about welfare or philanthropy. We are more focused on empowering people to change lives and free themselves from economic inequality by participating in a new digital economy that can help build.
